APR 06 2009

Cheryl J. Tyler can be reached on 571-272-4834. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Cheryl J. Tyler :

This is to inform you that a great injustice is being done. The BPAI has reversed, LJILJANA CIRIC decision on 09977775. We furnished information to Whirlpool Corporation and STM to buy or build or invention at least five months prior to Whirlpool putting in an application 09977775 for the same invention in 2001, which, Whirlpool did not inform you of.

My partner works for STM and we approached them for a waiver to do business with them ten months prior to Whirlpool's application 09977775. They have parts in Whirlpools Polara Refrigerated Oven. Included in this fax is proof of what we sent to both parties and a response back from Whirlpool five months prior to their application for a Patent. Violation of 35 U.S.C. 102. Prior knowledge.

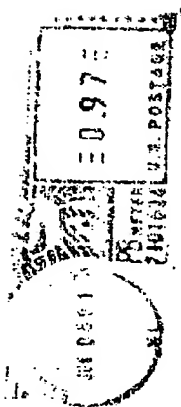

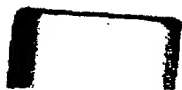

Also documents have been changed to cover up mistakes, prior response to 2-2-04 CTMS, SSP, not instant invention we were talking about. This is now missing in the prior document 11-13-03 where LJILJANA says it in her 2-2-04 CTMS, SSP in Public Pair IFW page 2. Document has been changed. Fraud.

LJILJANA, mooted evidence which again should have not allowed Whirlpool's application as Mr. Whitham disclosed a similar instant invention which was more than one year prior to submitting an application. 35U.S.C.102

"SPIRIT OF THE INVENTION" IS MISSING AT THE PATENT OFFICE.  
What about the original idea of a Refrigerated Oven? First to apply?

Hope you can help.  
Thank you,

Mark A George

Dear Outside Submitter:

## RE: YOUR IDEA SUBMITTED TO WHIRLPOOL CORPORATION

Thank you for your interest in suggesting an idea to Whirlpool Corporation. We appreciate your submission and ask that you follow the procedures established by our Corporation with regard to ideas from Outside Submitters.

WHIRLPOOL CORPORATION DOES NOT RECEIVE AND REVIEW OUTSIDE SUGGESTIONS WITHOUT THE LEGAL PROTECTION OF A WAIVER.

PLEASE NOTE THAT WE HAVE NOT REVIEWED OR KEPT A COPY OF YOUR LETTER AND/OR MATERIALS AND ARE RETURNING THEM TO YOU INTACT IN ORDER TO LEGALLY PROTECT YOUR INTERESTS AND THE INTERESTS OF WHIRLPOOL CORPORATION.

Whirlpool has its own employees as well as consultants constantly working on new ideas, and the substance of your suggestion may already be known to Whirlpool. Because our Corporation has many employees working on design, development and business ideas, Whirlpool only accepts and reviews ideas submitted by someone outside the company under the following conditions:

1. IDEAS MUST RELATE TO APPLIANCE PRODUCTS ON THE ATTACHED LIST;
2. IDEAS MUST BE SUBMITTED ALONG WITH A SIGNED WHIRLPOOL WAIVER.

In order to avoid any misunderstanding, Whirlpool will only receive and review suggestions which are submitted under the terms and conditions of our Waiver, two copies of which are enclosed. If your idea(s) meets the above-described terms and you wish to submit your idea to Whirlpool, please sign the enclosed Waiver and send one copy of the Waiver along with your idea to Whirlpool Corporation, Attn: Outside Submitter Correspondent, 2000 M-63, Mail Drop 2200, Benton Harbor, MI 49022. (The Second Waiver is provided for your files.)

If the above-stated conditions are met, upon receipt, your idea will be reviewed. If your idea stimulates interest and creates further questions, someone from Whirlpool may contact you. However, if your idea is not of interest, you will probably receive no further correspondence from Whirlpool regarding your submission because the volume of contacts each year prevents our continuing to communicate with each individual submitter.

We sincerely appreciate your interest in Whirlpool Corporation and wish you much success in your inventive endeavors.

A handwritten signature in cursive script that reads "Suellen Siglow".

## **PATENT PENDING**

Dear New Product Manager:

We have acquired **PATENT PENDING STATUS** which allows us to advance the following **\$1 MULTI BILLION DOLLAR CONCEPT \$1** to the worldwide market and are seeking a manufacturer to produce our product for us.

We have developed a new product which we believe lies within your capabilities and interests. Our product has been researched and prepared, and offers you an opportunity for diversification or complimentary expansion of your present product line. The following description explains the current status of our new product concept, and is written purposefully in only a general overview format. We will be happy to furnish additional information to you at your request.

This general submission of our invention is made voluntarily. Should your firm desire to explore producing, licensing or acquisition of this product, please mail back the enclosed **NON-DISCLOSURE AGREEMENT**, completed, signed, and returned in envelope provided, also with your Letter Of Intent. Upon receipt of this Response Sheet, We and our Attorneys will then expect confidential treatment of any ensuing disclosure and possible negotiation.

Enclosed please find a New Product Information Sheet explaining preliminary product and marketing data about our invention.

We would be receptive to an outright sale or licensing by your firm. Your exclusive rights to manufacture and market this product would be granted by a Performance Contract.

This letter has been intended to generate your initial interest in our product. Your request for additional information will be welcomed.

SINCERELY,

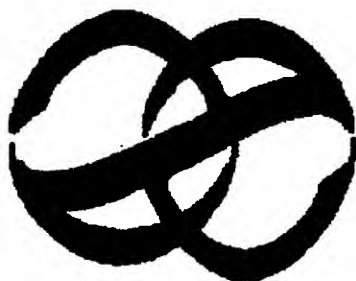

RON D. CLARK & MARK A. GEORGE

## **PATENT PENDING**

### **TECHNICAL FIELD OF THE INVENTION**

The present invention relates to the field of kitchen appliance. More specifically, the present invention relates to a combined refrigerator-oven apparatus for refrigerating and cooking food in the same enclosed chamber.

### **BACKGROUND OF THE INVENTION**

Lifestyles are very busy, and many families are away from home during large portions of the day for work, school, and other activities. As a consequence, the preparation of the evening meal can be significantly delayed until the cook returns home. Many families have extracurricular activities in the evenings. Thus, a delay in the preparation of the evening meal can undesirably overlap into the time allotted for these extracurricular activities. This problem is exacerbated if the family member cooking the meal is postponed on his or her return from work or school. This postponement causes the evening meal to be further delayed.

To meet such demanding schedules, many people replace the home-cooked evening meal with low nutritional value snacks, fast food, or by simply skipping meals. This unhealthy replacement for the home-cooked meal contributes to an increase in diet related disorders, such as obesity, heart disease, diabetes, and so forth. Accordingly, there is a need to decrease the preparation time for home-cooked meals, rather than snacks and fast food.

Microwave and convection ovens have typically been used to cook meals quickly. Unfortunately, the preparation of a meal entails more than simply cooking the food. In addition to cooking the meal, a cook typically has to prepare the food in the advance by cleaning it, cutting it, combining it with other ingredients, and so forth. This advance preparation can be even more time consuming than cooking the food. Sometimes a cook may prepare a meal in advance and store it in the refrigerator until he or she gets home, at which time, the cook will place the food in the oven to bake it. Unfortunately, the baking time can still undesirably delay the time at which the meal may be eaten.

## **PATENT PENDING**

### **BACKGROUND OF THE INVENTION**

Yet another tactic that cooks use is to place frozen food on the counter to thaw before leaving for work. The thawed food is then cooked upon their return home. Unfortunately, the food may thaw to room temperature before anyone returns home. Thawed foods that reach room temperature, particularly meat products, can become unsafe due to bacterial growth. Hence, it is recommended that most foods should be thawed in the refrigerator, rather on the countertop.

### **SUMMARY OF THE INVENTION**

Accordingly, it is an advantage of the present invention that a combined refrigerator-oven is provided that permits the selective cooling and cooking of food.

Another advantage of the present invention is that a combined refrigerator-oven is provided that can be preprogrammed to activate respective cooling and heating units of the refrigerator-oven.

Yet another advantage of the present invention is that the combined refrigerator-oven can be remotely controlled to activate the respective cooling and heating units of the combined refrigerator-oven and to change pre-programmed settings of the refrigerator-oven.

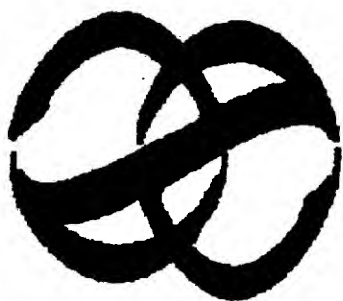

The above and other advantages of the present invention are carried out in one form by a combined refrigerator-oven apparatus.

## NEW PRODUCT INFORMATION SHEET

**We have obtained PATENT PENDING STATUS on our new product the REFRIGOROVEN  
an INDUSTRY FIRST.**

**The REFRIGOROVEN is a refrigerated oven that adds the ability to keep food cool to industry standards all night and day until the proper time to cook your meal.**

Phone or Internet access direct to the REFRIGOROVEN allows one to be able to change the start time of your meal at anytime to adjust to your schedule. When the meal is done cooking the REFRIGOROVEN will automatically turn to the hold warm cycle set to industry standards.

**When done eating large meals such as Thanksgiving or Christmas, leftover food can be stored in the REFRIGOROVEN on cool until the appropriate time you pick to reheat.**

**All one needs is a small amount of preparation time the night or morning before to prepare your meal. Prepared food is inserted into the REFRIGOROVEN and set on cool. Set the appropriate time and temp to cook and your done.**

**Going to be late or early, no problem, just dial up the REFRIGOROVEN and change the start time of your meal over the telephone or internet.**

**The REFRIGOROVEN a refrigerated oven with the convenience of Phone or Internet access to change your cooking requirements to meet your schedule.**

## PATENT PENDING

### **NON-DISCLOSURE/NON-COMPETE AGREEMENT**

This Agreement is made as of the \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_, by and between: STMicroelectronics located in Carrollton, TX and Ron Clark and Mark George.

This Agreement shall govern the conditions of disclosure by Ron Clark and Mark George to STMicroelectronics of certain "Confidential Information" including but not limited to prototypes, drawings, data, trade secrets and intellectual property relating to the "Patent Pending" invention named "RefrigorOven" invented by Ron Clark and Mark George. with Regard to the Confidential Information, STMicroelectronics hereby agrees:

1. Not to use the information therein except for evaluating its interest in entering a business relationship with Ron Clark and Mark George, based on the invention.
2. To safeguard the information against disclosure to others with the same degree of care as exercised with its own information of a similar nature.
3. Not to disclose the information to others, without the express written permission of Ron Clark and Mark George, except that:
  - a. Which STMicroelectronics can demonstrate by written records was previously known;
  - b. Which are now, or become in the future, public knowledge other than through acts or omissions of STMicroelectronics;
  - c. Which are lawfully obtained by STMicroelectronics from sources independent of Ron Clark and Mark George;
4. The STMicroelectronics shall not directly or indirectly acquire any interest in, or design, create, manufacture, sell or otherwise deal with any item or product, containing, based upon or derived from the information, except as may be expressly agreed to in writing by Ron Clark and Mark George.
5. That the secrecy obligations of STMicroelectronics with respect to the information shall continue for a period of three (3) years from the date hereof.

Ron Clark and Mark George will be entitled to obtain an injunction to prevent threatened or continued violation of this Agreement, but failure to enforce this Agreement will not be deemed a waiver of this Agreement.

IN WITNESS WHEREOF the Parties have hereunto executed this Agreement as of the day and year first above written.
